## DETAILED ACTION

### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Matthew L. Schneider on November 13, 2009.

An examiner's amendment to the record appears below:

- In claim 22, line 13, "glazing.", has been changed to glazing;
- In claim 22, line 14, please add, omitting from the array of measurement points the at least one area of reduced light transmission and ignoring the optical quality of the glazing in the area of reduced light transmission.
- In claim 25, line 11, "glazing.", has been changed to glazing;
- In claim 25, line 12, please add, omitting from the array of measurement points the at least one area of reduced light transmission and ignoring the optical quality of the glazing in the area of reduced light transmission.

***Allowable Subject Matter***

Claims 2-17 and 22-25 are allowed.

As to claims 10, 22 and 25, the prior art of record, taken alone or in combination, fails to disclose or render obvious omitting from the array of measurement points the at least one area of reduced light transmission and ignoring the optical quality of the glazing in the area of reduced light transmission, in combination with the rest of the limitations of the claim. Claims 2-9, 11-17, 23 and 24 are allowable by virtue of their dependency.

The closest prior art reference of Guering et al. (5,694,479) discloses a method of forming a shadowgraph image of a glazing.

However, Guering fail to disclose, teach or suggest omitting from the array of measurement points the at least one area of reduced light transmission and ignoring the optical quality of the glazing in the area of reduced light transmission.
